## Experiences

- Neverinstall** Bengaluru, India  
Software Development Engineer Intern Jan 2026 – Present
  - Developed the complete UI/UX for the Android APK and client-facing web platform using Kotlin, Java, and Next.js for a real-time cloud PC streaming system.
  - Built frontend and backend features including support portal development, API integrations, production bug fixes, and streaming-related workflows for the main web platform.
  - Developed SEO-focused static pages and led end-to-end feature delivery, testing, and client integration across cross-functional teams.
- Outlier** Remote  
AI Model Trainer | Contributor Oct 2024 – Mar 2025
  - Trained AI models across Java, Python, C++, and JavaScript through complex coding, debugging, and reasoning-based tasks.
  - Improved various model's response quality using prompt engineering, algorithmic problem-solving, and code correctness evaluation workflows.
  - Worked on functional programming tasks, structured data annotation pipelines, and multi-language AI training workflows for large-scale model improvement.

## Projects

- Coon – Real-Time Messaging Platform** | [Link](#) | [GitHub](#)  
ReactJS, NodeJS, ExpressJS, MongoDB, Socket.io, Redis, TailwindCSS Apr 2025 – May 2025
  - Built a scalable real-time messaging platform with anonymous identity support and persistent chat history.
  - Implemented WebSocket-based communication using Socket.io with Redis caching and MongoDB persistence for low-latency real-time messaging.
  - Developed dynamic channels, role-based permissions, and admin moderation features for real-time room management.
- DSA Visualizer** | [GitHub](#)  
Java, JavaFX Jan 2025 – Mar 2025
  - Developed an interactive desktop application to visualize data structures and algorithms in real time.
  - Implemented animated visualizations for sorting, searching, BST, AVL, heap, queue, and stack operations.
  - Designed a modular JavaFX architecture with reusable components and optimized rendering workflows.

## Skills

- Languages:** JavaScript, TypeScript, Java, Kotlin, C++, C, Python, SQL, GraphQL
- Frameworks/Tools:** React.js, Next.js, Node.js, Express.js, Spring Boot, Git, MongoDB, PostgreSQL, Firebase, Android Studio
- Cloud/DevOps:** AWS, Kubernetes, Cloud Computing, Docker, Microservices Architecture
- Mobile Development:** Android Development, iOS Development, Cross-Platform App Development
- Concepts:** SDK Architecture, REST APIs, System Design, Intelligent Payment Logic, Distributed Systems
- Soft Skills:** Project Ownership, Cross-functional Collaboration, Problem Solving

## Certifications

- Ethical Hacking** | [NPTEL Certificate](#) Oct 2024
- Generative AI with LLM** | [Coursera - Deep Learning.AI](#) Apr 2024

## Education

- Lovely Professional University** Phagwara, Punjab  
B.Tech - CSE (CGPA: 8.63) Aug 2022 – Present
- Dalimss Sunbeam School** Varanasi, Uttar Pradesh  
XII - PCM (80%) 2020 – 2021
- Chandra Public School** Mau, Uttar Pradesh  
X - Science (94.2%) 2018 – 2019
